Dear Ms. Kutt:

Thank you for writing the Central Intelligence Agency.

I have forwarded your invitation to nominate an individual for the "Federal Engineer of the Year" award to the appropriate Agency component. Should there be any interest, someone will be in contact with you.

Your interest in our Agency is appreciated.

GOVERNMENT ENGINEERS.....NSPE WANTS YOU!

ALEXANDRIA, VIRGINIA, OCTOBER 21, 1985--The search is on for the best the U.S. Government has to offer. The best engineer that is.

The National Society of Professional Engineers (NSPE) has announced it is accepting nominations for the seventh annual Federal Engineer of the Year Award. Deadline for candidate submissions is January 10, 1986.

NSPE expects participation from more than 40 government agencies representing some 90,000 engineers in the federal work force. Candidates will be judged primarily on engineering achievements but award criteria also include professional registration, civic and humanitarian accomplishments and professional and technical society activities.

Each participating agency will select its own Engineer of the Year. From among these winners a national judging panel will select the Federal Engineer of the Year. All winners will be recognized at a banquet in Washington, D.C., on February 19, 1986, during National Engineers Week.

For more information about the Federal Engineer of the Year program, contact Patricia Kutt, NSPE, 1420 King Street, Alexandria, Virginia 22314, 703/684-2864.
